

# Practitioner Research Highlights at Twilight

**Chairs: Dr Claire Tyson and Emma Taylor**  
**Speakers: Call for abstracts**

**12th November 2021**  
**5:30pm – 7:00pm**

Following on from our SIG AGM we are planning an event in November to allow further dissemination of member research aligned with our four key themes. Please submit your 250-word abstract including the theme in your title. The deadline for submission is 1st October 2021.

#### **Theme 1**

##### **Case Study of Ethics in Action**

BERA has provided guidelines for research carried out in educational establishments involving staff and students. We would be interested to hear from practitioners who have used these guidelines in their own context.

#### **Theme 2**

##### **Case Study of Methodology in Action**

There are opportunities for qualitative, quantitative and mixed methodologies in the context of educational research. We invite you to share your own experiences of using or developing methodologies in your own research.

#### **Theme 3**

##### **Perspective Paper on Reconciling Practice and Research in Education**

A key theme for our SIG, why is it so difficult to translate educational research into changes to practice in the classroom? What barriers exist between academic research and educational practice? Help us explore these issues by sharing your own perspectives or experiences.

#### **Theme 4**

##### **Examples of Innovative Dissemination of Practitioner Research**

One key gain from COVID-19 was the willingness of our community to embrace alternatives to face-to-face meetings and conferences. We invite you to share your research with us in a novel or innovative format. You may submit research on any topic, but we would like it to be shared in a new and interesting way that is accessible to a wide audience.
